Summary

I am a full stack web developer and a student furthering my studies in Computer Sciences. I have gained some necessary skills and experiences over the years while building amazing web-based projects. I love building software that can help individuals and enterprises scale high in order to reach their full potential.

I am highly skilled in building software in: NodeJS
- (Javascript)
- Python (Django) PHP
- (Laravel) HTML
- CSS
- React

Education

Federal University of Technology, Akure

Computer science • Akure, Ondo   05/2027

I am currently enrolled in the Federal University of Technology, Akure for a B.Tech in Computer Science.

Skills

Communication skills, Time management, Computer literacy, Web architecture design, Backend development, Fullstack web development

Experience

DWS (Domains and Web Services)

Software developer (Intern) • Osogbo, Osun   11/2021 - 08/2022

I learned how to use web technologies like HTML, CSS, PHP, NodeJs, React, Typescript and JavaScript to build real-life projects.

I also built side-projects with these technologies.

I also learnt the concept of team coherence and human-relations.

I assisted in building websites for clients by writing and refactoring code from existing codebases.

Ployco Universal

Part-time Fullstack developer • Akure, Ondo   08/2022 - 05/2023

I worked as a part-time fullstack developer building a fully functional web application and designing web architecture for scalable systems.

Maaxdo Technologies

Backend developer • Akure, Ondo   05/2023 - Present

I've built and designed backend infrastructures for various applications and gained experience in clean software architecture and design. Some projects include:
